

Pet Puzzle Answer

Solution:

1. **Nina** has the **bird** (because she has a pet that can fly).
2. **Mark** doesn't have a dog, and Nina has the bird, so **Mark** must have the **rabbit**.
3. **Lily** is sitting next to the person with the rabbit, so **Lily** has the **dog**.
4. That leaves **Jack** with the **cat** (since he doesn't have the rabbit or the dog).
